

OrganaBud

Cleanest help additive on the market

The combination of unique ingredients used in OrganaBud create revolutionary stability and efficacy.

- OrganaBud is completely soluble which ensures the working nutrient solution remains clear.
- Will not cause blocked drippers or build-ups in the nutrient reservoir.
- Will not induce foul residues or odors.
- Will not cause foaming in the reservoir.
- Is compatible with hydroponics, coco-fibre and soil systems including DWC, aeroponics and NFT.
- 3 year plus shelf-life helps ensure reliability.
- Dosage: 1-2ml/L (4-7.5ml/Gal) during veg and flower.
- Available in: 1L // 5L // 20L // 200L // 1000L

Organic additives are often notoriously messy (LEFT). OrganaBud runs extremely clean (RIGHT).

Revolutionary Organic Compounds

Over half of the FloraMax additives contain organics, but as analytical chemists, we have been able to isolate specific 'beneficial' organic molecules and incorporate them into our additives in a direct, purified, and potent form. This enables their concentrations to be optimized for maximum nutrient effect with no negative side-effects. The result is a range of products that produce unique and tangible results without reservoir foaming, build-ups, odors or blockages.

TESTIMONIES

“OrganaBud is the all-in-one organic additive that we have been needing. Our yields have improved in every aspect.”

“There’s definitely an improvement in overall plant health and vitality. The fruit tastes incredibly clean and distinct.”
