

Root-XS

Root-XS promotes explosive root growth and faster crop rotation.

- **Explosive root and foliage growth throughout veg helps reduce overall cropping time and minimizes transplant stress.** Plants can often be “flipped” sooner.
- **Produces greener, healthier foliage** and fruits with less signs of stress.
- **Root-XS will NOT induce foul residues, foaming or odors in the reservoir, nor cause blockages to drippers and filters.**
- Dosage: 2ml/L (7.5 ml/Gal) in seed, veg and week 1-3 of bloom.
- Available in: 1L // 5L // 20L // 1000L

CAUTION: Organic additive – NEVER use in conjunction with chlorines or peroxides.

“Purified extracted organics” explained

The chemists at FloraMax have been able to deconstruct popular organic ingredients such as kelp, fulvic acid and guano then isolate specific ‘beneficial’ organic molecules. These are then incorporated into our additives in a purified and potent form. Importantly, this enables their concentrations to be optimized for maximum nutrient effect, with no negative side-effects. The result is a range of products that produce unique and tangible results without causing blocked drippers, pH fluctuation, build-up, foaming or odors.

FloraMax Root-XS: Root growth over 8-days

TESTIMONIALS

““Root-XS is the best root enhancer on the market now” (One of USA’s largest chains)
“Daily there is clear growth and at this rate I’m at least 3 or 4 days ahead of my normal program. Root-XS has replaced at least three products that I normally use in wk 1 and the results for consistency and growth have been excellent.”
