Technical Information

Code	Description	Air Volume	Air Pressure	Outlet No,	Power Consumption	Flow Control
11129	Infinity AP150R Air Pump	100L/HR	20kPa	1	3W	No
11130	Infinity AP250R Air Pump	200L/HR	20kPa	1	3.1W	Yes
11131	Infinity AP750R Air Pump	2 x 200L/HR	20kPa	2	4W	Yes
11132	Infinity AP950R Air Pump	2 x 280L/HR	22kPa	2	5W	Yes

Spare Parts

Code	Description	Diaphragm
11129	Infinity AP150R Air Pump	41218 - Diaphragm - Infinity AP150R
11130	Infinity AP250R Air Pump	41205 - Diaphragm 2pk - Infinity AP250R
11131	Infinity AP750R Air Pump	41208 - Diaphragm 2pk - Infinity AP750R 950R
11132	Infinity AP950R Air Pump	41208 - Diaphragm 2pk - Infinity AP950R

Notes, Hints & Tips:

- If possible, place the pump above the water level of the aquarium. If this is not possible, ensure that a check valve is installed.
- As there is some vibration while the pump is running, ensure that the pump cannot move or fall.
- To test that the airline is not blocked or restricted, disconnect the airline from the pump and blow through it.
- To maximise the life of your pump, replace airstones every 6-12 months. Avoid positioning the pump in a dusty spot.

Warnings and Disclaimers:

- Read and follow all safety instructions and important notices in the provided instructions as well as on the product itself.
- Regular maintenance of this product and components are required to keep equipment with guarantee and to maintain fish health.
