

# Quick Change Pump

The Autogrow Quick Change Pump was designed with improved pump performance and ease of maintenance in mind.

The Quick Change Pump requires no tools to replace the squeeze tube.

The spring loaded roller block design enhances both performance and squeeze tube life.

## Why Autogrow Quick Change Pumps?

- Affordable commercial dosing volume
- Two dose rates (sizes) available
- Made in the USA
- Designed to maximize squeeze tube life
- Provides constant adjustment while the inside of the tube wears
- Adjusting to tolerances and any other deviations that may exist in the tubing
- Integrated brackets keep hoses tidy

Do you need a pump that is simple to install and easy to maintain?

## In the box

Autogrow Quick Change Pump

Mounting Hardware & Fitting Kit

4m cable supplied pre-wired

## Pump Performance

RPM	Pump Size/Description	Viscosity of Media cP	Dose Rate	
			mL/min	Oz/min
105	Small HPMP-SING-002-01	1*	495	16.7
105	Large HPMP-SING-003-01	1*	1485	50.2

Media - Specific Gravity  
\* Sg of 1.0 (water)
