FOCUS

RANGE

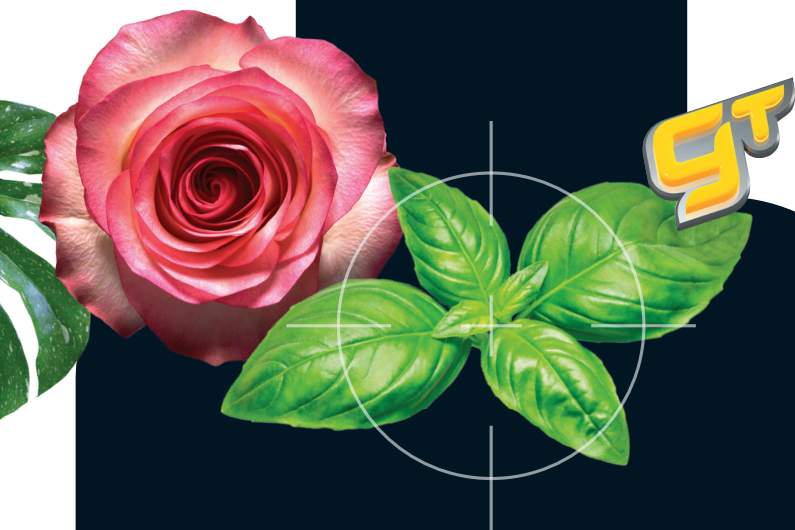

THE FOCUS RANGE

*LUSH, PROFUSE FOLIAGE?
MAGNIFICENT, VIBRANT BLOOMS?
BOUNTIFUL, ROBUST YIELDS?*

If these are your plant parenting goals, there's a GT Focus product for you. Developed using our revolutionary Single Pack Technology, the GT Focus Range focuses on accommodating the specific nutritional requirements of specific plant categories.

WHY CHOOSE GT FOCUS?

THIS RANGE SETS THE BENCHMARK FOR LIQUID NUTRIENTS AND FERTILISERS – HERE'S WHY:

- each GT Focus nutrient is **complete, balanced** and contains all 12 essential minerals
- suitable for both **hydroponics** and **soil**
- highly **bioavailable**
- **pH buffered** with no pH adjustment when used with most tap water
- manufactured using only **high grade raw materials** and **chelated trace elements** to ensure effortless absorption
- **guaranteed** not to contain potentially harmful and ineffective chlorides, urea and sodium
- completely **odourless**
- **available** in 250ml, 1 litre, 5 litre and 20 litre bottles

WHAT YOU CAN EXPECT

YOU CAN CONFIDENTLY EXPECT A HEALTHIER PLANT WITH:

- **faster** growth and development
- **increased** root development and strength
- greater **resistance** to disease
- **increased** tolerance to environmental stress

YOUR REWARD

You can put your trust in us. With 37+ years of comprehensive research and each nutrient batch tested by an independent laboratory, you can be confident that your plants will reward you with outstanding results when you reward them with a GT Focus product.

FORMULATED
NUTRIENT**

THE COMPANY

At Growth Technology we provide a range of products to professional horticulturists, viticulturists and commercial growers of high-yield greenhouse plants.

Our nutrient formulations can be found in use all over the world. We have maintained our position at the forefront of technical development in plant specific nutrition based on a triple foundation of literature review, ongoing experimentation and patient observation of plants in all growth stages.

The GT Focus Range, indeed all our products, bring the home gardening enthusiast the unsurpassed level of professional quality and expertise usually reserved for professional growers.

ANY QUESTIONS?

With our world-renown chemist and co-founder at the GT helm there's no question we can't answer. Slide into our DMs on instagram [@gt_growth_technology_au](https://www.instagram.com/gt_growth_technology_au) or email info@growthtechnology.com.au We'd love to hear from you.
