

# SPIDER MITE CONTROL

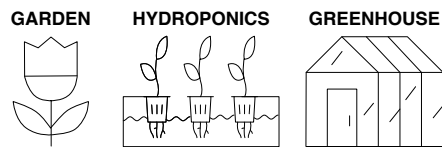

## PEST PROBLEMS

## HOW IT WORKS

SNS 217 & 217C kills spider mites & their eggs by coating them with an oily shield which prevents respiration. Mites dry out and die, and their eggs are prevented from hatching.

## WHERE TO USE

## SIZES AVAILABLE

**Ready to Use**

**Concentrated**

Contact our sales team for available bulk sizes  
Always refer to product labels

**O-Day REI**   
(Re-Entry Interval)

**SAFE AROUND CHILDREN & PETS**   
WHEN USED AS DIRECTED

**EPA Exempt**   
FIFRA 25(b)

products available **OMRI LISTED** 

**Mixing Compatibility**  
 SNS **217c** + SNS **244c**

## APPLICATION

### Mixing 217C

Shake well before mixing. Mix 21 oz. of concentrate per gallon of water.

For best results use warm (70 degree) Distilled or "Chlorine Free" water.

### Foliar Spray

Make sure to spray under the leaves where spider mites hide & lay their eggs. Do not use under direct sunlight or grow lamps.

Use 217 every 7-14 days for preventative maintenance.
