5ml TREATS UPTO 200L

READ SAFETY DIRECTION

PurePond Bio-Water Treatment & Conditioner is the first dechlorinator infused with **beneficial bacteria**, offering the highest concentration on the market.

Unlike traditional water conditioners, it is completely odor-free, ensuring a safe and pleasant experience for both you and your fish.

This powerful formula removes chlorine, chloramine, and harmful toxins while neutralizing ammonia and improving water quality. Specially cultivated probiotic strains enhance biological filtration, promoting a clean, balanced environment and strengthening the natural protective slime coat of fish for optimal health. Ideal for new pond setups and regular maintenance.

With PurePond Bioboost Water Treatment & Conditioner, you're not just treating water – you're creating a safe and healthy habitat for your aquatic life.

Use **5ml** for every **200L** of tap water, ensuring even distribution by agitating the water.

Tip: For best results, pair with BBA's PurePond beneficial bacteria products to quickly establish and maintain the nitrogen cycle in your pond.

Safety: Avoid eye contact. If product gets into eyes, rinse immediately with water. Not for human consumption. Keep out of the reach of children.

Improper use or deviations from the recommended application guidelines as well as changes in water conditions may harm aquatic life. BBA Biosolution is not liable for such losses.
